### Restrictions On Stock Transfers Local Television Associates, Inc.

#### 1. RESTRICTION ON STOCK.

During the joint lives of the parties to this agreement, none of them shall, without the written consent of both of the others, encumber or dispose of the shares of stock of the corporation now owned or hereinafter acquired by him, unless he shall first offer to encumber or dispose of his shares to each of the others upon the same terms and conditions offered by a bona fide prospective lender or purchaser. Should more than one remaining shareholder elect to exercise said option to purchase, each shall be entitled to purchase an equal percentage of the stock of the selling shareholder, or to lend to the borrowing shareholder the same percentage of the total obligation. Should only one elect to exercise this option, he shall be entitled to purchase all of the shares of the selling shareholder, or to fulfill all obligations of lender to said borrowing shareholder.

BROADCAST EQUAL EMPLOYMENT OPPORTUNITY

MODEL PROGRAM REPORT

1. APPLICANT

Name of Applicant <b>Local Television Associates, Inc.</b>	Address <b>P.O. Box 2069 Morehead City, NC 28557</b>
Telephone Number (include area code) <b>(919) 240-0888</b>	

2. This form is being submitted in conjunction with:

☒ Application for Construction Permit for New Station      ☐ Application for Assignment of License

☐ Application for Transfer of Control

(a) Call letters (or channel number of frequency) ..... **Channel 35**

(b) Community of License (city and state) ..... **Jacksonville, NC**

(c) Service:      ☐ AM      ☐ FM      ☒ TV      ☐ Other (Specify) \_\_\_\_\_

INSTRUCTIONS

Applicants seeking authority to construct a new commercial, noncommercial or international broadcast station, applicants seeking authority to obtain assignment of the construction permit or license of such a station, and applicants seeking authority to acquire control of an entity holding such construction permit or license are required to afford equal employment opportunity to all qualified persons and to refrain from discrimination in employment and related benefits on the basis of race, color, religion, national origin or sex. See Section 73.2080 of the Commission's Rules. Pursuant to these requirements, an applicant who proposes to employ five or more full-time employees must establish a program designed to assure equal employment opportunity for women and minority groups (that is, Blacks not of Hispanic origin, Asians or Pacific Islanders, American Indians or Alaskan Natives and Hispanics). This is submitted to the Commission as the Model EEO Program. If minority group representation in the available labor force is less than five percent (in the aggregate), a program for minority group members is not required. In such cases, a statement so indicating must be set forth in the EEO model program. However, a program must be filed for women since they comprise a significant percentage of virtually all area labor forces. If an applicant proposes to employ fewer than five full-time employees, no EEO program for women or minorities need be filed.

Guidelines for a Model EEO Program and a Model EEO Program are attached.

NOTE: Check appropriate box, sign the certification below and return to FCC:

- ☐ Station will employ fewer than 5 full-time employees; therefore no written program is being submitted.
- ☒ Station will employ 5 or more full-time employees. Our Model EEO Program is attached. (You must complete all sections of this form.)

I certify that the statements made herein are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

Signed and dated this 4th day of November, 19 91

Signed X [Signature]  
Title President

**ENCLOSURE**

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND IMPRISONMENT.  
U.S. CODE, TITLE 18, SECTION 1001.

## GUIDELINES TO THE MODEL EEO PROGRAM

The model EEO program adopted by the Commission for construction permit applicants, assignees and transferees contains five sections designed to assist the applicant in establishing an effective EEO program for its station. The specific elements which should be addressed are as follows:

### I. GENERAL POLICY

The first section of the program should contain a statement by the applicant that it will afford equal employment opportunity in all personnel actions without regard to race, color, religion, national origin or sex, and that it has adopted an EEO program which is designed to fully utilize the skills of qualified minorities and women in the relevant available labor force.

### II. RESPONSIBILITY FOR IMPLEMENTATION

This section calls for the name (if known) and title of the official who will be designated by the applicant to have responsibility for implementing the station's program.

### III. POLICY DISSEMINATION

The purpose of this section is to disclose the manner in which the station's EEO policy will be communicated to employees and prospective employees. The applicant's program should indicate whether it: (a) intends to utilize an employment application form which contains a notice informing job applicants that discrimination is prohibited and that persons who believe that they have been discriminated against may notify appropriate governmental agencies; (b) will post a notice which informs job applicants and employees that the applicant is an equal opportunity employer and that they may notify appropriate governmental authorities if they believe that they have been discriminated against; and (c) will seek the cooperation of labor unions, if represented at the station, in the implementation of its EEO program and in the inclusion of nondiscrimination provisions in union contracts. The applicant should also set forth any other methods it proposes to utilize in conveying its EEO policy (e.g., orientation materials, on-air announcements, station newsletter) to employees and prospective employees.

### IV. RECRUITMENT

The applicant should specify the recruitment sources and other techniques it proposes to use to attract qualified minority and female job applicants. Not all of the categories of recruitment sources need be utilized. The purpose of the listing is to assist the applicant in developing specialized referral sources to establish a pool of qualified minorities and women who can be contacted as job opportunities occur. Sources which subsequently prove to be nonproductive should not be relied on and new sources should be sought.

### V. TRAINING

Training programs are not mandatory. Each applicant is expected to decide, depending upon its own individual situation, whether a training program is feasible and would assist in its effort to increase the available pool of qualified minority and female applicants. Additionally, the applicant may set forth any other assistance it proposes to give to students, schools or colleges which is designed to be of benefit to minorities and women interested in entering the broadcasting field. The beneficiary of such assistance should be listed, as well as the form of assistance, such as contributions to scholarships, participation in work study programs, and the like.

## MODEL EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

### I. GENERAL POLICY

It will be our policy to provide employment opportunity to all qualified individuals without regard to their race, color, religion, national origin or sex in all personnel actions including recruitment, evaluation, selection, promotion, compensation, training and termination.

It will also be our policy to promote the realization of equal employment opportunity through a positive, continuing program of specific practices designed to ensure the full realization of equal employment opportunity without regard to race, color, religion, national origin or sex.

To make this policy effective, and to ensure conformance with the Rules and Regulations of the Federal Communications Commission, we have adopted an Equal Employment Opportunity Program which includes the following elements:

### II. RESPONSIBILITY FOR IMPLEMENTATION

(Name/Title) General Manager will be responsible for the administration and implementation of our Equal Employment Opportunity Program. It will also be the responsibility of all persons making employment decisions with respect to the recruitment, evaluation, selection, promotion, compensation, training and termination of employees to ensure that our policy and program is adhered to and that no person is discriminated against in employment because of race, color, religion, national origin or sex.

### III. POLICY DISSEMINATION

To assure that all members of the staff are cognizant of our equal employment opportunity policy and the individual responsibilities in carrying out this policy, the following communication efforts will be made:

- ☒ The station's employment application form will contain a notice informing prospective employees that discrimination because of race, color, religion, national origin or sex is prohibited and that they may notify the appropriate local, State or Federal agency if they believe they have been the victims of discrimination.
- ☒ Appropriate notices will be posted informing applicants and employees that the station is an Equal Opportunity Employer and of their right to notify an appropriate local, State or Federal agency if they believe they have been the victims of discrimination.
- ☒ We will seek the cooperation of unions, if represented at the station, to help implement our EEO program and all union contracts will contain a nondiscrimination clause.
- ☒ Other (specify)  
All of our job opening advertisements and applicant correspondence will clearly state that the station is an equal opportunity employer.

#### IV. RECRUITMENT

To ensure nondiscrimination in relation to minorities and women, and to foster their full consideration whenever job vacancies occur, we propose to utilize the following recruitment procedures:

- ☒ We will contact a variety of minority and women's organizations to encourage the referral of qualified minority and women applicants whenever job vacancies occur. Examples of organizations we intend to contact are:

North Carolina N. O. W.  
North Carolina N. A. A. C. P.

- ☒ In addition to the organizations noted above, which specialize in minority and women candidates, we will deal only with employment services, including State employment agencies, which refer job candidates without regard to their race, color, religion, national origin or sex. Examples of these employment referral services are:

North Carolina Employment Security Commission

- ☒ When we recruit prospective employees from educational institutions such recruitment efforts will include area schools and colleges with minority and women enrollments. Educational institutions to be contacted for recruitment purposes are:

Carteret Community College  
Craven Community College  
Elizabeth City State University  
North Carolina Central University

- ☒ When we place employment advertisements with media some of such advertisements will be placed in media which have significant circulation or viewership or are of particular interest to minorities and women. Examples of media to be utilized are:

New Bern Sun-Journal  
Jacksonville Daily News  
Broadcasting

- ☒ We will encourage employees to refer qualified minority and women candidates for existing and future job openings.

## V. TRAINING

- ☐ Station resources and/or needs will be such that we will be unable or do not choose to institute programs for upgrading the skills of employees.
- ☒ We will provide on-the-job training to upgrade the skills of employees.
- ☒ We will provide assistance to students, schools, or colleges in programs designed to enable qualified minorities and women to compete in the broadcast employment market on an equitable basis:

School or Other Beneficiary  
East Carolina University

Proposed Form of Assistance  
Internship for college credit

Craven Community College

Internship for college credit

Carteret Community College

Internship for college credit

☐ Other (specify)

### FCC NOTICE TO INDIVIDUALS REQUIRED BY THE PRIVACY ACT AND THE PAPERWORK REDUCTION ACT

The solicitation of personal information requested in this application is authorized by the Communications Act of 1934, as amended. The principal purpose for which the information will be used is to determine if the application requested is consistent with the public interest. The staff, consisting variously of attorneys, analysts, engineers, and applications examiners, will use the information to determine whether the application should be granted, denied, dismissed, or designated for hearing. If all the information requested is not provided, the application may be returned without action having been taken upon it or its processing may be delayed while a request is made to provide the missing information. Accordingly, every effort should be made to provide all necessary information. Your response is required to obtain the requested authority.

ASB Referral Date \_\_\_\_\_

Referred by \_\_\_\_\_

Name of Applicant  
Local Television Associates, Inc.

Call letters (if issued)  
new

### Purpose of Application (check appropriate box):

☒ Construct a new (main) facility

☐ Construct a new auxiliary facility

☐ Modify existing construction permit for main facility

☐ Modify existing construction permit for auxiliary facility

☐ Modify licensed main facility

☐ Modify licensed auxiliary facility

If purpose is to modify, indicate nature of change(s) by checking appropriate box(es), and specify the file number(s) of the authorization(s) affected:

☐ Antenna supporting-structure height

☐ Effective radiated power

☐ Antenna height above average terrain

☐ Frequency

☐ Antenna location

☐ Antenna system

☐ Main Studio location

☐ Other (Summarize briefly)

File Number(s) \_\_\_\_\_

### 1. Allocation:

Channel No.	Offset (check one)	Principal community to be served:			Zone (check one)
	<input type="checkbox"/> Plus	City	County	State	<input type="checkbox"/> I
	<input type="checkbox"/> Minus	Jacksonville	Onslow	NC	<input checked="" type="checkbox"/> II
35	<input checked="" type="checkbox"/> Zero				<input type="checkbox"/> III

### 2. Exact location of antenna:

(a) Specify address, town or city, county and state. If no address, specify distance and bearing to the nearest landmark.

west of NC state route 58, 2.5 km south of Trenton, NC

(b) Geographical coordinates (to nearest second). If mounted on element of an AM array, specify coordinates of center of array. Otherwise, specify tower location. Specify South Latitude or East Longitude where applicable; otherwise, North Latitude and West Longitude will be presumed.

Latitude	35°	02'	27"	Longitude	77°	21'	11"
----------	-----	-----	-----	-----------	-----	-----	-----

3. Is the supporting structure the same as that of another station(s) or proposed in another pending application(s)? ☒ Yes ☐ No

If Yes, give call letter(s) or file number(s) or both. WSFL (FM)

If proposal involves a change in height of an existing structure, specify existing height above ground level, including antenna, all other appurtenances, and lighting, if any.

no changes proposed

## SECTION V-C - TV BROADCAST ENGINEERING DATA (Page 2)

4. Does the application propose to correct previous site coordinates?  
If Yes, list old coordinates.

☐ Yes ☒ No

Latitude	°	'	"	Longitude	°	'	"
----------	---	---	---	-----------	---	---	---

5. Has the FAA been notified of the proposed construction?

☐ Yes ☒ No

If Yes, give date and office where notice was filed and attach as an Exhibit a copy of FAA determination, if available.      proposal utilizes existing Broadcast tower

Exhibit No.
-------------

Date \_\_\_\_\_ Office where filed \_\_\_\_\_

6. List all landing areas within 8 km of antenna site. Specify distance and bearing from structure to nearest point of the nearest runway.

Landing Area	Distance (km)	Bearing (degrees True)
--------------	---------------	------------------------

(a) \_\_\_\_\_

(b) \_\_\_\_\_

7. Elevation: (to the nearest meter)

(1) of site above mean sea level;      14 meters

(2) of the top of supporting structure above ground (including antenna, all other appurtenances, and lighting, if any); and      287 meters

(3) of the top of supporting structure above mean sea level  $[(a)(1) + (a)(2)]$ .      301 meters

- (b) Height of antenna radiation center: (to the nearest meter)

(1) above ground;      250 meters

(2) above mean sea level  $[(a)(1) + (b)(1)]$ ; and      264 meters

(3) above average terrain.      254 meters

8. Attach as an Exhibit sketch(es) of the supporting structure, labelling all elevations required in Question 7 above, except item 7(b)(3). If mounted on an AM directional-array element, specify heights and orientations of all array towers, as well as location of TV radiator.

Exhibit No. E-1
--------------------

9. Maximum visual effective radiated power 1400 kW

16. Attach as an Exhibit a map (Sectional Aeronautical Chart or equivalent) which shows clearly, legibly and accurately, and with the original printed latitude and longitude markings and a scale of distance in kilometers:

Exhibit No.  
E-6

- (a) The proposed transmitter location, and the radials along which profile graphs have been prepared;  
 (b) The City Grade, Grade A and Grade B predicted contours; and  
 (c) The legal boundaries of the principal community to be served.

17. Specify area in square kilometers (1 sq. mi. = 259 sq. km.) and population (latest census) within the predicted Grade B contour.

Area 12,933 sq. km. Population 489,143

18. For an application involving an auxiliary facility only, attach as an Exhibit a map (Sectional Aeronautical Chart or equivalent) that shows clearly, legibly, and accurately, and with latitude and longitude markings and a scale of distance in kilometers: not applicable

Exhibit No.

- (a) The proposed auxiliary Grade B contour; and  
 (b) The Grade B contour of the licensed main facility for which the applied-for facility will be the auxiliary.

(Main facility license file number \_\_\_\_\_)

19. Terrain and Coverage Data (To be calculated in accordance with 47 C.F.R. Section 73.684.)

Source of terrain data: (check only one box below)

☒ Linearly interpolated 90-second database (Source: NGDC)

☐ 7.5 minute topographic map

☐ Other (briefly summarize)

Radial bearing (degrees True)	Height of radiation center above average elevation of radial from 3 to 16 km (meters)	Predicted Distances

20. Environmental Statement/See 47 C.F.R. Section 1.1301 et seq.)

Would a Commission grant of this application come within 47 C.F.R. Section 1.1307, such that it may have a significant environmental impact?

☐ Yes ☒ No

If you answer Yes, submit as an Exhibit an Environmental Assessment required by 47 C.F.R. Section 1.1311.

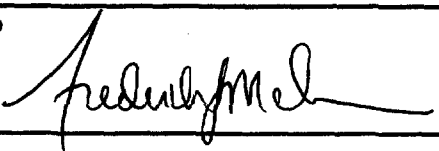

Exhibit No.

If No, explain briefly why not.

This facility is proposed to be located on an existing tower and is excluded from environmental processing. The proposal is within compliance of the ANSI radiofrequency radiation limits (see Exhibit E-7).

CERTIFICATION

I certify that I have prepared this Section of this application on behalf of the applicant, and that after such preparation I have examined the foregoing and found it to be accurate and true to the best of my knowledge and belief.

APPLICATION FOR NEW TV STATION  
JACKSONVILLE, NC  
OCTOBER, 1991

Channel 35  
1400 kw (max DA)  
254 m HAAT

This Technical Exhibit was prepared on behalf of Local Television Associates, Inc. This application proposes a new station for Jacksonville, NC operating with 1400 kw (max-DA) on channel 35. The application conforms to all applicable FCC rules and regulations, including 47 CFR 73.610 regarding minimum separation requirement.

The transmitter site is located 2.5 km south of Trenton, NC at an existing broadcast tower currently used by WSFL(FM), New Bern. This proposal would not be subject to environmental processing in accordance with 47 CFR 1.1306.

Site coordinates are N 35 02 27 W 77 21 11. An Andrew antenna ALP32M3-HSOC-35 will be side mounted on the existing tower between the 239m and 261 m level, with the center of radiation 250 m above ground level.

Application for new TV station  
Jacksonville, NC  
October, 1991

Referring to OST Bulletin 65, the "worst-case" situation for channel 35 as proposed with 10% aural would be 107 meters minimum distance. For WSFL (FM) minimum distance would be between 16 and 58 meters ("best" to "worst" case). Since the proposed channel 35 facility's center of radiation will be 250 meters AGL, this facility will exceed the minimums set by OST for UHF by 143 meters and for FM by over 220 meters.
